- Chris Hoffarth gave the Treasury Report.
 - We had to absorb some expenses from the 6th qualifier tournament at Lake Pleasant due to it being cancelled. It was about \$550.
 - The ending balance for 2017 was about \$40,000.
 - Some Immediate expenses to start off 2018 include funding state team members for regionals that will be held on Clear Lake in CA. This includes team jerseys, gas, and lodging. About \$1400 per team for travel expenses.
 - We are trying to fund current year with last years collections.
 - State and National dues are being collected.
- Lance Cathcart gave the report on community service.
 - In order to be eligible for the state team you will need 2 community service projects for the 2018 season. The first project must be completed **BEFORE** June 30th and the second project must be completed **BEFORE** the final qualifier, which is November 17th.
 - Service projects don't have to be fishing related. Some ideas for projects are:
 - Helping with High School tournaments
 - Cast for Kids event coming up on March 24th

- Working with AZ Game and Fish to plant fish habitat.
 - Organizing lake cleanups.
 - If you are planning your own project you must first get approval from Lance Cathcart.
- Presidents Report
 - State team dues need to be collected. If you have not yet paid them please get them in as soon as possible.
 - The 2018 2nd qualifier scheduled to be held on Apache Lake has been changed to Roosevelt. Only lake location is changing day and time will remain the same. This is due to the conditions currently effecting Apache.
 - If you are interested in any Quantum products please check with George and he will get you the information you will need.
 - Mercury starts their discount program the end of Feb. Contact George for the product form. Remember don't put your Credit Card information on the form. They will ask for it when they call you back to confirm your order.
 - Other sponsors include Lobina Lures and Dobyys Rods.
 - We will be doing member shirts again, we plan to do pre orders for the shirts so we can get an idea of quantity needed.
 - We will not be going to a punctureless cull tag system. You can use the cull tags that you have.
